LA_200_01

DJMax_Remake

List of feature:

- For loop   - Functions   - Class   - Array   - PImage   - Minim   - String
- Boolean   - Float   - Int   - Function pass in few arguments

Brief Discription:

- "D", "F", "J", "K" keys control

- If score are lower than "0" then the game is over.

- Combo are only for entertain

The idea are from DJMax, Code by Java using Processing IDE. Is a simple music game and hope anyone who like this kind of game will enjoy. I learn about more about programming and graphic programming! In addition, I also figure it out how the algorithm work! Since this was a simple game so I think the whole programming are simple!
